please note - print will be only on the from of the ruler. The sides and back will remain white.

Exact colours cannot accurately be depicted on a monitor and may look different on one monitor from another. Also, digital printing may not be able to accurately reproduce PMS colours, so colours will be matched as closely as possible. In order to see the actual colours a hard copy is required. If exact colours are critical and you require a physical proof please let us know and we will gladly provide one. However this will delay despatch by 2-3 days. Approving via an electronic proof accepts the fact that actual colours may vary from those which are seen on your monitor.

We, the undersigned, understand that since there was no colour sample we will accept this job as it is printed and have no complaints regarding any issues there may be with the colours.

Please note:
Alterations after 3rd proof will be charged at \$20 per additional proof.
